

The North Carolina Chapter of the American Academy of Orthotists & Prosthetists

October 2, 2016

Dear NCAAOP Members and Supporters,

I want to thank our chapter members for electing me as our chapter President and entrusting me with this position. It is a great honor to begin my term as President and I do not take this position lightly. I have a great passion for this profession, especially since I am both a patient and practitioner, and hope to help our state practitioners maintain a high level of knowledge, ethics, and legislative assistance necessary for optimal patient care.

We are at a critical time for the profession with insurance changes, legislation, and technology advancements. I am motivated to help us stay stay knowledgeable in these areas and ensure our patients are properly cared for by properly credentialed and knowledgeable practitioners.

I am looking forward to planning an exceptional 2017 state meeting in Charlotte on October 12, 2017 as well as ensuring our members get great benefit from their membership. I want to inform you that my goals during my term are to grow the North Carolinas Chapter membership as well as increase young practitioner and student involvement. I look forward to a productive successful year and invite each of you to participate and become involved. I will also be joining the NAAOP as a board member starting January 1, 2017 to ensure our state has a voice at the national level and stays abreast of national changes occurring that may impact us.

Please feel free to contact me at any time if I can be of any help throughout my two year term as President of this chapter. Also, we want to encourage you to follow the chapter on the new facebook page for NCAAOP.

Brittany Stresing, CPO FAAOP
President of NCAAOP
President of LimBionics of Durham, Inc
